

CAN FURNET

Villa comes with its own unique style: modern paintings and artwork everywhere as well as perfectly curated sculptures, furniture and artistic additions. An ultra-modern, high end kitchen greets the guests as they enter which accompanies an expansive dining area and solid wood table big enough for 20. Ibiza style sunbeds and sofas await on the pool deck to help guests take in the breathtaking views while enjoying a dip in the pool to cool off.

On the ground floor are 3 of the 6 bedrooms. The master suite is located towards the back of the house and not only looks onto the pool deck but also out onto the scenery of Ibiza with unforgettable 180° views from the sumptuous bed fit for a king or a queen.

The gold and white theme continues into the huge ensuite bathroom with his and hers sinks and a gorgeous shower room.

The other two bedrooms are situated either side of the main entrance with plenty of privacy.

Downstairs the palatial rooms just keep coming. Three expansive bedrooms are as magnificently decorated as the last - with one off pieces of furniture and ornaments, each room is fitted with a kitchenette and immense bathrooms which are just as distinctive as the next.

Each room has a floor to ceiling sliding door which can be used to access the gardens and the famous views. In between the downstairs bedrooms is a gym and spa room which can be used to work up a sweat on the bike or have a relaxing massage - don't forget the mood lighting. Guests can enjoy The Nest bathrobes, towels and sheets in each room using the highest quality fabrics.

With two beautiful villas set on the same property, Villa The Nest allows large parties to enjoy a lavish stay in one of Ibiza's chicest residential communities, Can Furnet.

While Villa The Nest One offers four bedrooms with ensuite bathrooms including a charming children's room, Villa The Nest Two offers 6 stunning apartment-like bedrooms with large en suite bathrooms and kitchenettes.

Villa The Nest One and Villa The Nest Two can be rented together or separately. Together, Villa The Nest offers a huge space for up to 20 people with 10 bedrooms and the houses share a vast rooftop terrace.

The roof terrace boasts an outdoor cinema, outdoor speaker system, huge dining table for up to 30 guests all with 360° views of the whole island.

Villa The Nest is the ideal place for events of all kinds such as weddings, birthdays, family celebrations or corporate stays - there is something for everyone, while watching the most spectacular sunsets.

Both villas are located in the gated community Can Furnet with 24 hour security. The villas are secured with state of the art alarm and camera systems to make a stay as safe and secure as possible.

Can Furnet itself is perfectly located: far enough away from the main city to be able to relax and close enough to be in the hustle of Ibiza Town within 10 minutes. The town of Jesus is just a stone throw away to enjoy somewhere to have breakfast or browse the shops. The beaches of Cala Llonga, Cala Bonita, Cala Escondida and Talamanca are also only 10 minutes away like many of the other popular Ibiza destinations.
